

Assignment -2

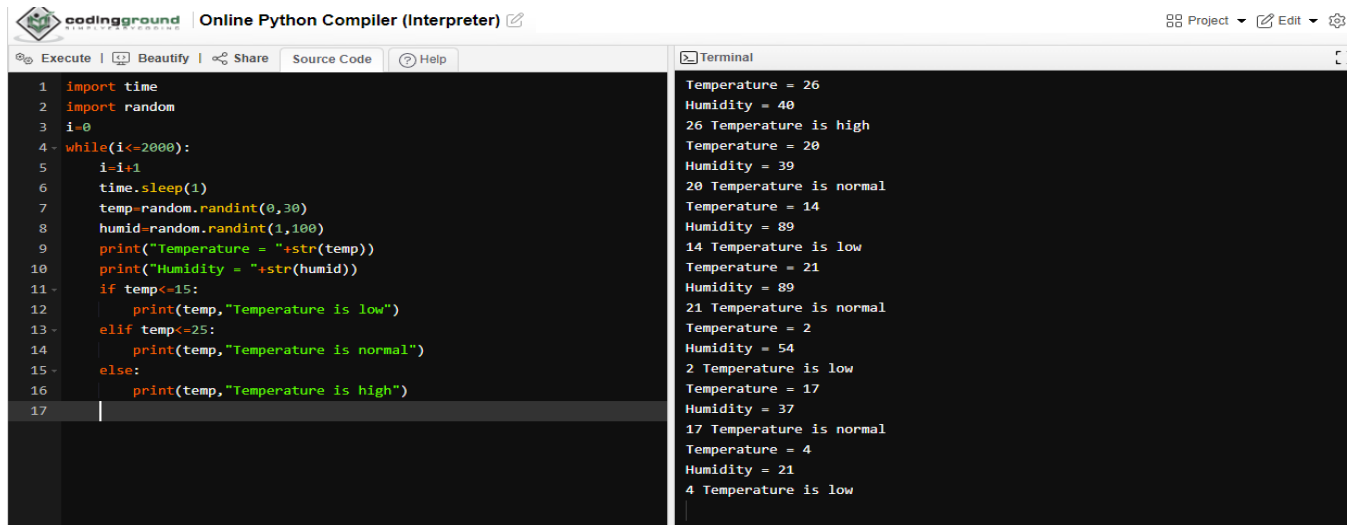

SMART SOLUTIONS FOR RAILWAYS

Assignment Date	26 September 2022
Student Name	KAVIYA SREE M
Student Roll Number	113219071014
Maximum Marks	2 Marks

Build a python code, Assume u get temperature and humidity values (generated with random function to a variable) and write a condition to continuously detect alarmin case of high temperature.

```
import time
import random
i=0
while(i<=2000):
    i=i+1
    time.sleep(1)
    temp=random.randint(0,30)
    humid=random.randint(1,100)
    print("Temperature = "+str(temp))
    print("Humidity = "+str(humid))
    if temp<=15:
        print(temp,"Temperature is low")
    elif temp<=25:
        print(temp,"Temperature is normal")
    else:
        print(temp,"Temperature is high")
```

OUTPUT:

The screenshot shows the 'codingground' online Python compiler interface. The top bar includes the logo, the title 'Online Python Compiler (Interpreter)', and navigation links for 'Project', 'Edit', and 'Settings'. Below the bar is a menu with 'Execute', 'Beautify', 'Share', 'Source Code', and 'Help'. The main editor displays a Python script that generates random temperature and humidity values and prints them with status messages. The 'Terminal' pane on the right shows the output of the script.

```
1 import time
2 import random
3 i=0
4 while(i<=2000):
5     i=i+1
6     time.sleep(1)
7     temp=random.randint(0,30)
8     humid=random.randint(1,100)
9     print("Temperature = "+str(temp))
10    print("Humidity = "+str(humid))
11    if temp<=15:
12        print(temp,"Temperature is low")
13    elif temp<=25:
14        print(temp,"Temperature is normal")
15    else:
16        print(temp,"Temperature is high")
17
```

Temperature = 26
Humidity = 40
26 Temperature is high
Temperature = 20
Humidity = 39
20 Temperature is normal
Temperature = 14
Humidity = 89
14 Temperature is low
Temperature = 21
Humidity = 89
21 Temperature is normal
Temperature = 2
Humidity = 54
2 Temperature is low
Temperature = 17
Humidity = 37
17 Temperature is normal
Temperature = 4
Humidity = 21
4 Temperature is low
